Advancing Urogynecology in 2018

The American Urogynecologic Society (AUGS) is the premier non-profit organization representing professionals dedicated to treating female pelvic floor disorders. Founded in 1979, AUGS represents more than 1,900 members, including practicing physicians, nurse practitioners, physical therapists, nurses, health care professionals, and researchers from many disciplines.

For members and constituents, AUGS is the primary source of clinical and scientific information and education in Female Pelvic Medicine and Reconstructive Surgery (FPMRS).

New Courses Added
- Urogyn Update
- Urogynecology for the Advanced Practice Provider
- Urogynecologic Master Class

72+ CME Hours
Advancing Urogynecology in 2018 CONTINUED

11 Webinars Added

575+ Individuals Accessed Online Educational Resources

1,151 Attendees from 22 countries

359 Abstracts Submitted

153 Presenters

6 Hands-On Workshops

CME Credits Offered 32.5
Advancing Urogynecology in 2018 CONTINUED

1. New Consensus Statements
   - Use of Cystoscopy in Prolapse Surgery

2. New Best Practice Statements
   - Evaluation of Obstructed Defecation
   - Evaluation and Treatment of Recurring UTI in Women

Quality Initiative
SUI Surgery Module Released

Publications
Awards & Honors

Jack Robertson Lifetime Achievement Award
AUGS’ most prestigious award is presented periodically to an individual who has had a lifetime of outstanding achievements in the field of Female Pelvic Medicine and Reconstructive Surgery and has served as a role model through service, basic or clinical research, and teaching.

John O.L. DeLancey, MD is recognized for the indisputable mark he has left on AUGS and the field of FPMRS. He is responsible for much of the seminal research work that helps us understand the basic mechanisms that contribute to the development of pelvic floor disorders and has published hundreds of important research papers that have expanded this understanding. He has trained generations of FPMRS specialists and continues to have an impact on the younger generations.

Raymond A. Lee Endowment
The Raymond A. Lee Endowment is a named lectureship created by AUGS to honor one person annually who contributes to the development and surgical advancement of urogynecology and further advances the knowledge and teaching of gynecologic surgery through ongoing AUGS educational programs.

Elizabeth R. Mueller, MD has successfully united her special interests and enthusiasm for teaching and education to develop several novel teaching tools, including an integrated, surgical anatomy lecture and dissection series for gynecology and urology residents and a formal, nationally accepted educational curriculum on urodynamics for urology residents. She has for many years served as a model of the collaborative potential for the fields of Urology and Gynecology.

Robin Haff Research Award
This award is presented annually to an individual in recognition of outstanding and sustained contribution to female pelvic floor disorders research. The Robin Haff Research Award recognizes the important role that clinical research nurses and research coordinators play in the process. Without dedicated and committed staff, high quality research would not be possible.

Julie Tumbarello started as a research assistant and is now the project manager at the University of Michigan, supervising and managing all of the Female Pelvic Medicine and Reconstructive Surgery research projects. She is known there as the beating heart of a thriving program that she has played a key role in developing.
Resident Scholar Award

2018 Resident Scholars
This program funds third-year residents who have demonstrated an interest in Female Pelvic Medicine and Reconstructive Surgery to attend PFD Week and experience the current research initiatives going on within the field. Each scholar receives a $1,000 award to cover travel, hotel accommodations and meeting registration.

AUGS Strategic Goals

AUGS promotes the highest quality patient care through excellence in education, research, and advocacy.

**Education**
Establish AUGS as the home for the highest quality scientific and clinical knowledge in FPMRS education.

**Research**
Promote basic and clinical research for the prevention and treatment of PFDs.

**Clinical Practice**
Provide members with resources, tools, and skills to enhance practice and provide quality patient care.

**Quality**
Define the standard of care in FPMRS and provide tools and resources for urogynecologists to track and measure their outcomes to improve patient care.
