

Beaumont

Beaumont Health-Female Pelvic Medicine and Reconstructive Surgery (OBGYN) is now accredited by the ACGME. This is a three-year fellowship program. Our program is based in Wayne, MI, with rotations in Dearborn and Troy.

Dr. Salil Khandwala, the Program Director, has extensive experience in FPMRS and was part of the first group of physicians to become board certified in this field. He is involved in several state of the art surgical procedures for prolapse and incontinence.

The fellowship allows extensive clinical, research, and teaching opportunities. Our program provides comprehensive exposure to urogynecologic, colorectal, and urology issues with the focus being on innovation and outcomes improvement. The clinical practice is very busy and allows the fellow to work in a high volume setting.

There is tremendous emphasis placed on clinical research, and fellows are provided ample time to complete prospective studies. Research is a primary focus of our program, and Dr. Khandwala prepares his fellows to become leaders and innovators of FPMRS.

Additional faculty members are Dr. Pradeep Nagaraju (FPMRS), Dr. Muzammil Ahmed (Urology), Dr. Ganesh Deshmukh (Colorectal), and Dr. Gunjan Shaw (GI).

Program inquiries should be directed to our Program Manager, Shelly Wisnowski, at Shelly.Wisnowski@beaumont.edu (preferable) or contact Shelly at (947) 522-3088.
