

University of Michigan

Fellowship Program Name: University of Michigan, Female Pelvic Medicine and Reconstructive Surgery

Fellowship Coordinator: Vanessa Clinton

Address:

1500 East Medical Center Drive
L4000 University Hospital South
Ann Arbor, MI 48109-5276

Phone: 734-615-3773

E-mail: vclinton@med.umich.edu

Description: The goal of our program is to train academic subspecialty physicians to be outstanding leaders in research, teaching and clinical care. The fellowship is supported by both the Departments of Obstetrics and Gynecology and Urology. We have a long history of clinical and research collaboration between departments and the fellows receive integrated instruction and complementary clinical experiences through both departments. Clinical and surgical training includes treatment of urinary incontinence, anal incontinence, fistulas, pelvic organ prolapse, congenital anomalies/neovagina creation, postpartum perineal issues, and colorectal pelvic floor dysfunction involving a complex referral patient population. The clinical curriculum is enriched with clinical and surgical experience in Gynecologic Minimally Invasive Surgery, Vulvar Diseases and Gastroenterology. There is a strong emphasis on research and collaboration based on long-standing relationships with our basic science departments including Biomechanical Engineering and other clinical departments including Radiology and Surgery. Michigan fellows have won many awards for their original research at national and international meetings and are involved with the NIH-supported Pelvic Floor Research Group.

For further information about the Female Pelvic Medicine and Reconstructive Surgery Fellowship Program and the application process at the University of Michigan please refer to our website: <http://obgyn.med.umich.edu/education/fellowships/abog-fellowships/female-pelvic-medicine>.

Interview dates for 2015 cycle: April 3, 2014, April 16, 2014, and April 23, 2014.

Other Degrees or Curricula Offered: A minimum of one graduate-level course in biostatistics. Opportunity to participate in M.P.H. program.

Requirements:

- Satisfactory completion of an accredited ObGyn residency
- U.S. citizenship or a J-1 visa sponsored by the ECFMG

Program Length: 3 years

Number of Fellows: 3

AGME Accreditation since 2012

Fellowship Program Director: John O. L. DeLancey

Urogynecology Faculty: John O. L. DeLancey, Dee E. Fenner, Dan M. Morgan, Megan O. Schimpf, Mitchell B. Berger, Carolyn Swenson

Application Process: ERAS. No additional documents are required beyond the ERAS application.
