Fellowship Program Director: William Winkelman, MD

Program Coordinator: Faye Marin

Address:

Department of Obstetrics & Gynecology
330 Mount Auburn Street
Cambridge MA, 02138

Email:

Faye Marin: fmcneil@mah.harvard.edu

William Winkelman: william.winkelman@mah.harvard.edu

Program Description: This accredited, three-year fellowship has been training fellows for over fifteen years and provides a comprehensive approach to pelvic floor disorder management. Fellows will receive a broad spectrum of surgical training, and by graduation will be highly skilled in performing laparoscopic, vaginal and robotic surgery as well as maintaining skills in abdominal surgery. Clinic experience includes a wide variety of outpatient urogynecologic evaluation and treatment as well as office procedures such as neuromodulation and botox injections. The division consists of four fellowship trained urogynecologists and a senior gynecologist with advanced laparoscopic skills. A colorectal rotation and urology experience are provided. We are affiliated with Harvard Medical School and are involved in teaching residents from a Harvard affiliated tertiary care center. Research time is divided into blocks that increase with successive year in training. Extensive research resources are also available from the greater Harvard community. Urogynecology fellows do not have any obstetric obligations.

Minimum Requirements: Graduation from an ACGME Residency Program in Obstetrics and Gynecology.

Program Length: 3 years

Number of Fellows: 1 per year

FPMRS and Gynecology Faculty: Peter L. Rosenblatt, MD (Division Director of Urogynecology); William Winkelman, MD (Fellowship Program Director); Anthony J. DiScuillo MD (Division Director of Gynecology); Katherine Hanaway, MD (Faculty in Urogynecology); Katharine Esselen, MD (Gyn Onc); Joseph Dottino, MD (Gyn Onc)

Urology Faculty: Ruslan Korets, MD (Urology Residency Program Director, BIDMC)

Colorectal and Gastroenterology Faculty: Thomas Cataldo, MD (Colorectal Surgery Fellowship Program Director, BIDMC), Johanna Iturrino Moreda, MD (Gastroenterology, BIDMC Motility Center)

Research Faculty: Michele Hacker PhD (Associate Professor in the Department of Epidemiology)

Application Process: Applications must be submitted to ERAS. We will be participating in the NRMP match.

- 1/17/23: Application deadline for consideration of first round interviews
- 2/7/23: First round interview offers delivered electronically by 8:00PM ET
- 2/13/23: Deadline to accept/decline first round interview offers by 8:00pm ET. Failure to respond will be considered declining the invitation
- Waitlisted candidates or those who submit applications after January 17th may be offered interviews

A complete application must include the following:

1. A completed ERAS program application
2. Curriculum Vitae
3. A personal statement describing your professional background and interest in urogynecology;
4. 3 letters of reference, one of these must be from your residency program director
5. CREOG transcripts from PGY 1-3 years (these can be emailed directly to the Associate Program Director (william.winkelman@mah.harvard.edu))
