Feinberg School of Medicine

Female Pelvic Medicine and Reconstructive Surgery

## **Northwestern University**

**Fellowship Program Name:** McGaw Medical Center of Northwestern University

**Address:**

250 E. Superior

Suite 05-2113

Chicago, IL 60611

**Phone:** 312-472-3874

**Fellowship Program Director:** Margaret Mueller, MD

**Associate Program Director:** Christina Lewicky-Gaup, MD

**Fellowship Coordinator:** Kelley Kinnucan

**Email:** [Kelley.Kinnucan@nm.org](mailto:Kelley.Kinnucan@nm.org)

### **Description:**

Northwestern is uniquely situated geographically in downtown Chicago with a strong brand in women's health care, research, and academics in gynecology and Urology. The FPMRS Division at Northwestern University offers multidisciplinary treatment, research, and educational endeavors in female pelvic floor disorders where patients can benefit from the latest treatments and opportunities by participating in (1) clinical research trials for urinary incontinence, bowel control problems and pelvic organ prolapse; and (2) a state-of-the-art, multidisciplinary integrated, pelvic health center with experts from Urogynecology, Urology, Colorectal Surgery, Gastroenterology, Physical Medicine and Rehabilitation, and Physical Therapy.

Northwestern University Feinberg School of Medicine's ACGME-accredited fellowship program in Female Pelvic Medicine & Reconstructive Surgery (FPMRS) is an integrated training program supported by the Departments of Obstetrics & Gynecology and Urology. The FPMRS fellowship aims to train surgeon scientists to provide excellent clinical and surgical care to women with complex pelvic floor disorders and become independent investigators.

The fellowship is a three-year training program for gynecology applicants or a two-year program for urology applicants after completing primary training in urology or gynecology. Two years are dedicated to clinical and surgical mastery of urinary incontinence and pelvic floor disorders, and the equivalent of one year is dedicated to clinical and translational research. We anticipate that our fellows will go on to advance women's pelvic floor health as skilled surgeon-scientists and committed mentors and educators while providing exceptional clinical and surgical care. Our fellowship program balances clinical-surgical care, scholarship, and research, as we believe learning to balance these activities during training is crucial to ongoing success as academic leaders.

We accept one fellow per year (3-year program) with a full complement of 3 fellows. Based on qualifications, fellows from Obstetrics & Gynecology and Urology backgrounds will be accepted. For more information, please visit our website: [NU FPMRS](#)

**Requirements:**

- Satisfactory completion of an accredited Obstetrics & Gynecology or Urology residency program

**Program Length:** 3 years

**Number of Fellows:** 3

**Urogynecology Core Faculty:** Kimberly Kenton, MD, MS; Christina Lewicky-Gaupp, MD; Margaret Mueller, MD; Sarah Collins, MD, Julia Geynisman-Tan, MD; C. Emi Bretschneider, MD; Oluwateniola Brown, MD

**Application Process:** ERAS, Your ERAS application should include the following:

- All ERAS documents
- Personal Statement
- Curriculum Vitae (through ERAS)
