Minimally Invasive Gynecologic Surgery Faculty: Katherine Smith, MD

Description: The fellowship in Female Pelvic Medicine and Reconstructive Surgery at the University of Oklahoma Health Sciences Center (OUHSC) accepts individuals who have completed an ACGME approved residency training program in Obstetrics and Gynecology or Urology. The program is designed to provide training and experience in clinical care and research for women with pelvic floor disorders. Clinical locations include inpatient and outpatient Urogynecology, Minimally Invasive Gynecologic Surgery, Urology, and Colorectal Surgery. Candidates interested in pursuing a career in academic medicine will be preferred. Our catchment area includes the OU Health campus clinics, various community-based women's health clinics, and referral sites throughout the state of Oklahoma, southern Kansas, northern Texas, and Arkansas. We serve a diverse patient population that includes Caucasian, African-American, Asian, and Hispanic women as well as a substantial minority of Native American women.

Program Length: 3 years

Number of Fellows: 3

Application Process: ERAS
