The USC Institute of Urology at the Keck School of Medicine offers an ACGME-accredited fellowship in Female Pelvic Medicine and Reconstructive Surgery in collaboration with the Departments of ObGyn and Colorectal Surgery. Candidates for this fellowship should have completed an ACGME-accredited residency program in ObGyn or Urology and should be eligible for licensure in California. The program requires a three-year commitment for gynecologists and a two-year commitment for urologists.

Throughout the program, fellows spend time in the operating rooms, clinics, and urodynamics and manometry labs located across Keck Hospital of USC, Norris Hospital, LAC+USC Medical Center, and Rancho Los Amigos National Rehabilitation Center. They work directly with full-time academic faculty on both the private and county hospital services, as well as with residents and interns. In addition to urology, gynecology, and colorectal clinical rotations, fellows are also trained as physician-scholars through a comprehensive research rotation that includes participation in laboratory meetings, research presentations, completion of two graduate courses, and involvement in a variety of clinical and basic science research projects. Fellows complete a thesis at the end of the program.

Seven faculty members are involved in mentoring and training. They have wide expertise in female and male voiding dysfunction, female urology, neurourology, lower urinary tract reconstruction, urodynamics, and defecatory and anorectal disorders.

**Faculty:**

Larissa Rodriguez, MD  
David Ginsberg, MD  
Evgeniy Kreydin, MD

Begum Ozel, MD  
Christina Dancz, MD

Kyle Cologne, MD  
Avita Pahwa, MD

**Application Tips:**

Candidates apply in their penultimate year of residency through ERAS (December cycle).

ACGME Program Number: 4860548003

Submit 3 letters of recommendation, and one must come from your residency program director or your department chairperson.

For full consideration, please submit all application materials before January 10<sup>th</sup>.
